

### THE COUNTRYSIDE CODE

Wherever you go, following these steps will help keep your pet safe, protect the environment, and show you are a responsible dog owner.

- Control your dog so that it does not scare or disturb farm animals or wildlife.
- When using the new access rights over open country and common land, you must keep your dog on a short lead between 1 March and 31 July - and all year round near farm animals - and you may not be able to take your dog at all on some areas or at some times. **Please follow any official signs.**
- You do not have to put your dog on a lead on public paths, as long as it is under close control. But as a general rule, keep your dog on a lead if you cannot rely on its obedience. **By law, farmers are entitled to destroy a dog that injures or worries their animals.**
- If a farm animal chases you and your dog, it is safer to let your dog off the lead - don't risk getting hurt by trying to protect it.
- Take particular care that your dog doesn't scare sheep and lambs, or wander where it might disturb birds that nest on the ground and other wildlife - eggs and young will soon die without protection from their parents.
- Everyone knows how unpleasant dog mess is and it can cause infections. **Always clean up after your dog and get rid of the mess responsibly.** Also, make sure your dog is wormed regularly to protect it, other animals and people.
- Walking on public footpaths/roads in possibly wet or slippery conditions could be potentially hazardous

### DISCLAIMER
